Richard

It's obvious after all the screw ups near the completion=of the showers, JPK do not, or have not used a skilled plumber.

We where intending =o use one of the two Plumbers for the Master Bath refurbishment.

Obviously this not going=to happen.

tha=k you

Update

By Friday afternoon Cabana=99s 1 and 4 will be ready

At this time both Cabana's=2 and 3 have plumbing issues, fortunately Cabana 2 did not sustain
damage=C2=

But a bigger issue was discovered this afternoon, it=appears there is a leak in the supply line
from the manifold under Cabana = to Cabana's 2 and 3.

Please note this line is ori=inal to build.

Regarding the question of responsibility

For the hot water line - JPK

Yes, this was the firs= time cabana's 2 and 3 sustain constant water pressure to ba=hrooms

LSJ plumbed vanities and hot water heaters .

<=iv>

Comments

Find certified=plumber !!!

If possible Run a camera thru lines ??

Ord=r wall tile for showers ASAP.

Schedule AHF again for floor=repairs in cabana 3

We need to be absolutely confide=t in plumber and tile for master bath Reno before moving

forward

Brice

Brice / Kyle=A0

Thanks for update. Who's is responsible for his hot water line? Was jay involved? Our crew? Was this the first time water was tested? Please advise. Thank you.

Sorry for this new= !!
A hot water line to the thermostatic shower valve in C=ana 3 blew apart last
night

The wall between the bathroom=and shower that houses the valve filled with
water, which resulted in water= seeping into the bathroom and bedroom

Th= floors in both areas will need to be replaced, along with the Bedroom
Rug=and most probably the bathroom Cabinetry

<=pan>

Repair to line is in progress
I will =orward a update at 4.30 tonight

Brice </=pan>
