Jeffrey,

Here =99s how we can do that.

1. We pick 12 pe=ple for the start. Say 6 guys, 6 girls.

For example Samantha, Katya, Jay, Neil and I'll show you more candid=tes.

2. Gathering them every 3 months or=more often. We can start in the beggning of February so people can put it in the schedules.

For every new gathering we'd ask first attendees to nominate new peo=le and select 2-3 best. Some people can also be excluded. We =an grow it up to 15-20 people at he first year.

3. We discuss some global topics so people fill like they participa=e in designing the future. We can also invite one additional person who =80 s an expert on the topic.

Idea #1

We discuss state of science, fundamental and social, what kind of re=search they do, what it brings to the world and how world change under its =nfluence. Invite scientists on topic to speak + make commentaries on them = follow with discussion

Idea #2

United Nations has sustainable development goals document —=C2  
<https://www.un.org/sustainabledevelopment/sustainable-development-goals/>  
<<https://www.un.org/sustainabledevelopment/sustainable-development-goals/>> .  
Every participant can=

- give their idea on how they would enhance this docu=ent;  
- offer their approach to solve one of the sustainabl= development goals listed in the document.

Speak for 10-15 min on both topics

Idea #3

We can discuss the key global =roblems. Say — would it be crises/not? What's happening wi=h climate change? Is AI a threat? Etc

Idea #4 =A0

TBD

At the end of year we can do 2-3=days event/retreat in a beautiful place so everyone get to know each other=even better.

Between the sessions we can re=d a few books on particular topic every time and then discuss it all toget=er.

In a year we'd have a solid g=oup of 20 young people educated and knowledgeable on the world's g=obal problems, trends and opportunities.

Th=s would look like something between an informal think tank and salon. This=group can be used to run through it any ideas/policies that can influence =society on international level. Positioning: something like a global young =ntellectual elite group.

We don't have to say that= we can give a sense of it.

Would they really become this =lite or not — depends on them.

Global thi=king, curiosity, fast career growth would be a criteria for each of them. =C2

What do you think?
