We do want to have dialogue however you put us in a system that never worked properly from the start and now you are trying to make money again...

We strongly believe that system should be replaced at your cost which means no labor costs no install and no markups on material...

Evening Richard,

The price you quote seems too far from my direct quote from the manufacturer but will inquire.

I have concerns that this is not an apples to apples comparison. Please relay any quote you received so we can ensure they are the same product and kWh.

I was also of the impression we were having a discussion.
