Sorry for this news !!
A hot water line to the thermostatic shower valve in Cabana 3 blew apart l=st night The wall between the bathroom and shower that hous=s the valve filled with water, which resulted in water seeping into the bat=room and bedroom

The floors in both areas w=ll need to be replaced, along with the Bedroom Rug and most probably the ba=hroom Cabinetry

All other furnishing have=been removed and placed in Cabana 4

Repai= to line is in progress
I will forward a update at 4.30 ton=ght
