Sorry for t=is news !!

A hot water line to the thermostatic shower valve in Cabana 3 blew apart la=t night

The wall between the bathroom and shower that houses the valve filled with =ater, which resulted in water seeping into the bathroom and bedroom

The floors in both areas will need to be replaced, along with the Bedroom R=g and most probably the bathroom Cabinetry

All other furnishing have been removed and placed in Cabana 4

Repair to line is in progress

I will forward a update at 4.30 tonight
