Hi Mark,

I'm glad Vicky got you a message from me. I've been dying to have a few minutes to chat.

Your institute looks amazing and right up my alley. =eats is one of our sponsors when we do our Move for Minds event, and I can=E2 wait to share this with them.

=AOI will make sure to come find you tonight and say hello. Also, if there =s time and enough quiet around us, I would love to do a very brief iPhone =nterview for our website. Very basic question of why music is important to=the brain, and from our perspective, why it is that music seems to reach p=tients with Alzheimer's and dementia unlike other stimuli.

And if we can't do it tonight, I'll find another time. I=just thought it would be great to take advantage of being in the same plac=.

Break a leg open the panel. See you tonig=t.

Sandy
Executive Producer,=Shriver Media
Director of Strategic Partnerships, =omen's Alzheimer's Movement Work [REDACTED]
