Good day All

GSJ update

Liston Networks (Liston and 1 assistant) Installed temporary wireless links to restore internet down to main compoun=.(Once the new area by the GSJ manager cottage is ready these links will be=removed)

The wireless access points to the beach and cabanas needs to be replaced. I w=ll be back on Monday to address the access points and do a walk through for=LSJ and GSJ.

I also removed the computers and took them to stc to update the OS.

Regards  
Jruan
