Good day.

The main compound pool lights have =een replaced and are on line. New switches for them have also been =nstalled.

The new palm tree lights are not =nstalled as yet and will be completed by 11-30-18.

Bryan's Electric did not make it out today but have =escheduled to be out this Monday.

Between the =lection and this being a short holiday week WAPA has been unresponsive =ith regard to the permit for disconnect/reconnect. That will continue =eing pursued on Monday.

The painters got to work =oday on the oil room cleaning and priming.

Good day.

We are currently getting a disconnect/reconnect permit pulled with WAPA and once we have that, scheduling can be done. I have contacted Bryan's Electric and they will be out tomorrow to review what needs to be done.

They have said the work can be done before the next holiday. I will let you know as soon as we have a scheduled date.

Good day.

Generators on GSJ are on island and will schedule with crane operator Thursday, he has been off island, to have them set in proper position and then a week to tie in.

Lsj generator #1 is on line with new voltage regulator and #2 will come on line Thursday.

WAPA has been contacted and told that the switch replacement will be taking place within the next two weeks.
