Subject:	ForeFlight

Jeffrey
ForeFlight has an update for your iPhone for Synthetic Vision, while using t=e ADS-B receiver.
If you have time download the Data for Sync Vision on your iPhone ForeFlight=app, It will work with the ADS-B receiver
in the cockpit,, In your Wifi settings when your in the plane, select Stratus on your Wifi se=ting to link your iPhone to
ADSB to get heading and attitude info, plus Syn= vision

Thx
Larryv
