Subject: Saying hello...

Jeffery,

I know it's been forever. I hope you are well.

Just thought I'd let you know where I am these days...

I've been living in SF for three years now and love it. I'm a=quantum engineer at a quantum computing start up in Berkeley called Rigetti=Computing. I'm the head of the deployment team and we are responsib=e for the devices that are accessible to users. It's been fun getti=g to do physics at a startup. I'm also learning how to be a boss :)=

I was just in st barths with the family. Everyone is doing well.

Happy early holidays.

All the best,
