had good =eetings in London on the way back, in particular with Sir Trevor =unn... and he is interested in doing something with me.. =nbsp;and then turned out coincidentally I will have a call with some =ich guy who has produced stuff in on broadway NYC on Friday (at his =equest) so maybe the 3 of us can prepare a one man show off broadway, =erhaps on Star Trek, or something like that.

Also having podcast =eetings on Friday..

and am going to do LLC paperwork this =eek I hope.. as I would like to explore producing some events at that =heater in Phoenix.

In the meantime Provost wrote me an even more stupid letter =oday.. backing down somewhat in one way, but not in another.. he is =ery stupid.

Hope all is well there.. I may be in NYC in Jan to meet with =unn and this investor.. in case you are there then..
