Can you please explain to me why you are being so rude with me after I just wanted to talk to catch up and what did I take from you that made you so angry? I keep asking you the same questions because I don't have a real answer I will always believe that you used me and then threw me away as I told you yesterday and for this reason I am still seeing a psychologist but whatever I tell him he will never be able to answer and give me an explanation for you. When you say "you only take" and also saying "I prefer to remember you like I last saw you" or "you are not a friend" is not very nice and completely unjustified.

By doing this it seems you are making up excuses to push me away and make me feel bad about something that I don't even know what it is when the only thing I wanted was to speak with you.
