Subject: you are invited to OUR BASIC 2019 CONFERENCE AND OTHER ACTIV=TIES as well, from JANUARY 6-12 ,

2019

Dear Jeff,

You are invited to OUR CONFERENCE IN BAHAMAS, BASIC2019 which wil= be  
taking place in Stella Maris in Long Island Bahamas,  
January 6 to 12 2019

see the announcement of our next conference,

<https://cgc.physics.miami.edu/BASIC2019Announcement.html>

Also, it may be interesting for you to learn about

what will be taking place around our BASIC2019 conference and the futur=  
of our BASIC project.

. Walking distance from our conference an amazing development that will=/div>

change Long Island Bahamas is taking place . Read the full story here i=

the Caribbean Journal report:

<https://www.caribjournal.com/2018/10/16/the-bahamas-is-getting-a-new-five-star-resort-project/#</=>>

<<https://www.caribjournal.com/2018/10/16/the-bahamas-is-getti=g-a-new-five-star-resort-project/#>>

The developers of this project are very sympathetic to our BASIC projec=

and will be present in our conference. The prospects for BASIC in Long<=div>

Island look bright! . Come to BASIC2019 and be part in the development o=

the Bahamas Advanced Study Institute and Conferences!

Best,

Eduardo Guendelman and Thom Curtright

Subject: MY PLANS

=

Tomorrow I travel to=Chile, from there some time in March I will go to the US, both the East Coa=t and the west coast, Miami and Bahamas, probably to Bahamas also with Thom=Curtright from U. Miami. In another development, Zeeya Merali, Science jour=alist told me she would agree to be spokesperson for the center. Zeeya Mera=i has written articles across a range of scientific subjects for Scientific American <<http://www.scientificamerican.com/>> , Nature<=a>, =/span> <<http://www.nature.com/>> New Scientist <<http://www.newscientist.com/>> , and D=scover <<http://discovermagazine.com/>> . A freelance journalist and author, she has published two textbooks in colla=oration with =em>National Geographic <<http://www.nationalgeographic.com/>> and is now working on her first popular physics book (which i= fact will cover some of my work on "baby universes" ). Her documentary, Aperture Fever, about amateur astro=omy, was broadcast on The History Channel, UK, in 2008. She has also worked=on the forthcoming Nova television series "The Fabric of the Cosmos". Meral= received a first-class degree and Master's in natural sciences from the University of Cambridge and a PhD in cosmology from Br=wn University <<http://www.brown.edu/>> .

that is all for now,</=iv>  
all the best,  
Eduardo

Subject: POSSIBILITY OF DISCUSSING FURTHER DETAILS

President of the Jeffrey Epstein Foundation,

Dear Jeffrey,

I was very happy to hear that you are interested in the project concern=ng starting a Theoretical Physics Center in Long Island, in the Bahamas. So far there has been great interest fr=m the University of Miami, they suggested that such center could be an extension of their theoretical physics group. T=ere has been interest also from physicists from Havana and from Puerto Rico. There have been positive comments als= from Fernando Quevedo, the head of the ICTP, the International Center f=r Theoretical Physics, an Italy a=d UN funded organization, based in Trieste Italy who suggested there could be a possibility the ICTP could have some involvement (may be to fund participat=on from cuban physicists?). Also Richard Keywort=, a developer in Long Island has=nsbp;mentioned that he was willing to sell the land needed for the center at a discount and a=so help, using his connections, =o get some (but probably not en=ugh) funding from the Bahamian goverment. We would like to know to what extent you would like to participate in t=is development, of course we can take your suggestions concerning the favorite topics you would like to emphasize,=for example gravity?, I understand this is one of your favorite topics, since you once organized a conference on t=is topic. I am planning to travel to both Miami and Long Island in March, I could=also visit you for example in the Virgin Islands, but other places could be as well, to discuss the extent of your p=rticipation, your input on what subjects you would like to be <=div> emphasized, what are your suggestions fo= the name of the center, etc., anything you want, All the best,

Eduardo Guendelman,  
Physics,  
Ben Gurion University, Beer Sheva, Israe=.
