Jeffrey

After we shut down the APU, I noticed a CAS message, "APU Maintenance required" Pete informs, could be a TGT channel or TGT probe in the APU, I don't expect=any major findings, there are 2 channels A and B, each is a back up to each=other, We are having Gulfsteam PBI investigate., I'm also changing the #2 Main Tire, I noticed a cut, just to be safe=

Is this approved?

Thx
Larry
