Good day.

Thank you for your opinion on hauling =uilding materials. It is not needed.

The quote for the =eat is due to damage to the undercarriage of the seat and the inability =o move it forward or backward and at the moment it is stuck at an =wkward angle due to bent rails in the undercarriage.

The =roken glass repair is for damage done at MSI by their forklift driver =nd the owner of MSI has said he will be responsible for the cost of =epair. Carlos was there when it happened and has been the point man for =ll the work being done to the truck.
