Jeffrey

After we shut down the APU, I noticed a CAS message,  
"APU Maintenance required"

Pete informs, could be a TGT channel or TGT probe in the APU, I don't expect any major findings, there are 2 channels A and B, each is a back up to each other,  
We are having Gulfstream PBI investigate.,  
I'm also changing the #2 Main Tire, I noticed a cut, just to be safe.

Is this approved?

Thx  
Larry
