Checking in again. Don't mean to be a nuisance but moving forward on hiring John for the plant sentence project and experiments hinges on funding. If you are still interested in supporting the project it would be really helpful to know. I've cleared the ability to take the funds with Joi.

What did you think of John?

Are we good to move forward with the 500k for support during dec 2018-2019 for the sentence work?

I believe Joi has worked out the pipeline with MIT but time is of the essence to secure John to the team

Thx
