**To:** Brice; Kyle reavis; michael glidden; Richard Kahn  
**Subject:** IMPORTANT CHANGES lets have a call today

1. I modeled out the main compound wall=C2 and instead of being ten foot of dirt between the wall and terrace. bring the wall directly against the current coral stone.=C2 we will plant sea grapes behind. We might want to run electric alongside for lights.
- 2 in =the barge ramp and area between it and the dock or the other side =A0 should we be putting in large cleats. for the barge to tie to? =A0 are we making a curved boat ramp . =r straight. . ?
3. On GSJ the quonset hut and especially the generators are too close to the pool area =C2 . how far away can we move them. ?
5. wood=shop landscaping . marine. boat storage ALL goes to GSJ. =A0 we will use it as a support island. =A0 an office will be built on the clearing looking at lsj , ky=e and i visited yesterday.
- 6 we will build a 100 foot pool near the beach.
- 7 staff, lunch= area. etc will be in zmas cove. .
- 8 mike we will have to light the main compound area at night. . in addition to the tree downlights. so the wall gives us a base. .=C2
