Jeffrey

I sent your email message to Wendy,

In regards to her knowing about Fuel Mitigation,, when I spoke with her, she confirmed it's Mandatory for her BBJ2 to comply with Fuel Mitigation since her plane has more than 19 certified belted PAX=seats, and most likely be operated in US under FAR125 rules,, I =80 I'll fwd her response to your email, when received.,

Thx
Larry

but you should email Ben and Wendy that an N registration, would require fuel mitigation.

Correct, but any FAA - Federal Air Regulation "=AR" does not apply to foreign registered aircraft, Ben's BB jurisdiction is P4 which appears to be registered in Aruba. It depends on Aruba's CAA, (Civil Aircraft Authority).

I spoke to Charlie Blieberg= my FAA (PMI) Principle Maintenance Inspector, he confirms, that under FAR 9-1507 for fuel tank inspection programs, doesn't mention requirement for FAR 91 Operations, including BBJ under FAR91 ops.

<https://www.gleim.com/aviation/faraime/?leafNum=91.1507>

Charlie also informed a BBJ can operate under FAR91 using an STC that Boeing and Associated Air in Texas own, which reduces the useful load of the BBJ to under 600=lbs, and has less than 19 belted seats for passengers..

*** (How ever, Associated Air closed their doors in March of this year, its unknown what happens to the STC that allows FAR91 operations of a BBJ for new owners, & bsp;

Any BBJ that operates FAR 125, FAR 135 or FAR 121 Must have fuel tank mitigation completed to operate after Dec 26, 2017. As you stated. =AR 91 is Exempt from fuel mitigation..

Wendy= BBJ2

Wendy called me, the Boeing Test flight happened last week,=the Buyer has NOT signed the Purchase Agreement yet, and is stalling,. Wend= would like to pass on the current buyer and have you make an offer,. =/div>

Wendy asked if you would share:

- 1-how much would you of=er,
- 2-PreBuy conditions,
- 3-how fast could you clo=e?

Thx

Larry
