Jeffrey,

The Sound Bar you purchased sounds GREAT! 300w Wireless subwoofer has nice =one,,
Except the \$100 tv you purchased didn't have Fiber Optic out,,

So I purchased a "White" LG TV for \$129 that has Fiber Opti= out, which is the only Input for the Sound bar,,
Also, you can BlueTooth your phone to the Sound Bar and Play Music,,

The White LG has a Center Post mount, I'm sure Eric can Rig somethi=g on the Drink Ledge to secure the TV, and
can be easily removed,

Sent from my iPhone
