Subject: Fwd: Cabana Floors

Luis =ill call me when onsite tomorrow

Luis told me that now =ll 4 cabanas now have had an intrusion of water from the rock walls =sounds like Brice explanation - strange..) This =as caused edges of floor to cup and become elevated which Luis now says =eeds to be sanded via refinishing and not just re coating..

Good afternoon Richard,

Based on the conditions of the floors in all cabanas we =re recommending all floors be completely refinished opposed to just =e-coating.

Many Thanks,
