Subject: highly time-sensitive inquiry from a Science magazine reporter

Dear Dr. Krauss,

I'm a reporter with Science in Washington, D.C.

I'm in possession of the document with ASU's determination that you violated ASU's code of conduct in grabbing a woman's breast at a conference in November, 2016 in Australia. I have also interviewed a witness to this incident, Melanie Thomson, at some length and will be calling ASU momentarily to ask about the action it is taking as a result of these findings.

I am very much hoping to get your comment for my article which will post as soon as this evening eastern time.

The questions I would like to ask are:<=p>

What is your response to this finding? Is it fair? Is it true? Why/Why not?

What is right or wrong in the process of this second investigation of you by ASU?

Has ASU taken any official actions against you in recent days, e.g. to terminate your employment, end your administrative leave, require sexual harassment training or anything else that one would typically expect in this kind of situation?

Melanie Thomson who says she witnessed the breast-grabbing incident in November 2016 is asking for a public apology from you and that you be required to go to sensitivity training/counselling. How do you respond?

What do you want to add that is not in your 9-page statement posted after the BuzzFeed article was published in March?<=u>

What else do you want me to know?

I'm available by email, or at both numbers below. I would welcome the chance to speak with you. I will be available until 6 pm Eastern time today.

Sincerely,

Meredith Wadman, BM, BCh

I would also appreciate:

1. A copy of your resignation letter to the Bulletin =80 s Board
