**Subject:** Nanna And PRD

Greetings all Nanna will be going to Offshore marine today at 1pm, they are getting ready but are holding back due to weather restrictions. We have had rainy weather for last 10 days also affecting the completion dates on PRD. Offshore is a covered facility but for shade its not 100 percent waterproof, they have advised for the attachment of tube it must be completely dry. I will keep everybody posted.

Thankyou, respectfully  
Carlos
