Ben,

<=ont color="#000000">can you share the floor plan changes that your current buyer requested?

Show Quoted Content

Ben, &=bsp;

can you share the floor plan changes that your current buyer requested?

They want to remove one divan in the forward cabin and replace with 2 seats, enlarge the credenza tv , add a curtain after divans before seats in the forward cabin. All at their own post closing expense.

1 the forward galley would have to be redone, the commercial racks on entry seem awkward.

<=pan style="background-color: rgba(255, 255, 255, 0);">

We can quote this for you.

2. is there a captain chair, such as a V=P seat?

All are "VIP" seats))

3. is there a reason you left the faux wood floor in entry and lav?

That's all new , and in line with the design concept..

4. how much time needed for the cabin assembly after receipt as it says 2019 delivery? &nbs=;

This takes 6-8 months from order to receive the engineering package. Then about one week max downtime..

<=pan style="caret-color: rgb(0, 0, 0); background-color: rgba(255, 255, 255, 0);">do the front divans have any tables either arm or carry overs?

No only the L shape high/low coffee table

6. Can you send me a list of recent checks and due dates for future checks.

We coordinated the 12/24 (A/B) checks along with calendar items, ADs (fan blade) some gear items, etc... Will send you a CAMP status sheet , the aircraft is now current.

7 can this be easily N registered, if not , why not? if so, how long?

Can be done post closing to be paid by purchaser. explain what you would like and we will gladly quote it.

9-did you have to redo weight and balance? the mod says the aux tanks need to be taken out for the low altitude mod. ? place?

Yes , we did a W&B post completion. Yes the Tanks come out and and go back in and is included in our estimate of 600k.
