I have closed the enforcement case which will allow the permitting section to review the proposed dock at GSJ. Going forward I hope we can maintain a complementary relationship as you develop the islands to ensure work complies with federal laws. If I can be of any assistance moving forward feel free to contact me. I have forwarded the dock application to the Antilles office; however, I would recommend that you also submit the application through the Joint application process with USACE and DNER. I hope storm recovery efforts are going smoothly and it was a pleasure working with you both.
