Morning

Regarding dock wood=div>Sylvester indicated the hard wood ordered after the hurricanes was for the replace=ent Storm Shutters in the main compound, no hardwood was ordered for the dock I contacted=Jimmy His Crew routed edges, but did not cut to length, 1 bundle of Pr=ssure treated wood, which was left exposed on top of the Desal Building The w=od on the dock match's what was existing, except for 4 pieces, which will be replaced </=iv> please note we s=rted thru 3 stacks trying to fine reasonable wood to lay

As discussed at Friday's meeting last week, the dock will have a heavy fo=t and buggy traffic on it for the next 2-3 months Recommend Sand Stain and =arine varnish finish the dock to protect wood Research alt=rnative decking, t=at will be more durable to heavy traffic Can we proceed w=th finishing
