Jeffrey,

I thought the carry on was to be used as a sofa and you were putting the mattress that came in with the aircraft down for when it's a bed.

Jeffrey,

Please review the attached photos.

The cardboard is cut to the requested 18 degree angle but we all feel it is too much lean and not comfortable.

The cushion as it is in the photo is how we suggest it to be giving the most lean but keeping it comfortable.

Eric was onboard during the process and agrees as well.

The second photo is of the foam build for the arm rest pillows as in the photo you provided of your couch.

Questions

1. What fabric do you wish to use on the down pillows?
2. Do you want welting on the down pillows?
3. What material and style do you want the mid cabin curtain?

Thank you

JAY MASSAR | OPERATIONS MGR
