Subject: Your patient

Hello Dr Bard...

I wanted to see if, when you talk to your patient after his treatment this afternoon... how he felt after his bike ride, what was his range of motion feeling after treatment and did he notice any difference after treatment....

That would give me a better idea, if the programs that I selected were the correct programs and correct pad placements for his next visit...

It was great seeing you, and hope to see you very soon.

Your friend
