**Subject:** Weather for Trip to Paris Flight Time 6:37

Departing Teterboro the weather should be very similar to =oday, very good.

During the crossing from 50 West to 23=West expect moderate turbulence between 30,000 to 40,000 feet. We mi=ht be above the turbulence.

Arriving Paris expect=cloudy VFR conditions as a cold front will have just passed through.  
=div>

Estimated flight time is 6:37. We should be arriv=ng Paris around 8:07 p.m.
