Nothing done yet. Hopefully they hit our bid tomorrow. I don't want to chase given what a big impact a slightly higher price has on the yield given the short maturity.

Update:

Bonds are trading up 1 point.

New effective yield is ~7.50%. I still like the trade. 7.50% for 11 month paper with ample liquidity beyond the maturity of this bond.

Hi Jeffrey

1. Buy Casino Groupe (French supermarket company with operations in Europe and South America) bonds
  - a. COFP 4.407% maturing Aug 2019
  - b. Yields 5.25% in EUR and then do a EURUSD cross currency swap into USD. This effectively creates a USD denominated bond yielding ~8.60%
  - c. Net leverage of 3.52x
  - d. Rated BB by S&P
  - e. EUR 3bln market cap
  - f. Notional outstanding on this bond is EUR 674MM. Company had EUR 2.2bln in cash and EUR 3.1bln in undrawn credit facilities maturing in 2020-22
  - g. JPM overweight the credit
  - h. I would do \$3MM
