--Karl, below.

--Walter Mischel, RIP Walter Mischel, 88, Psychologist Famed for Marshmallow Test, Dies - The New York Times
<https://nyti.ms/2xlbLYD>

--Danny is quite ill. Had to cancel the meeting just as he tried to get in the car to CT. Severe pain from herniated disc compounded by Labor Day temp doctor who prescribed cortisone pills instead of injection, which have a very different effect on his diabetes. Can't feel his feet, can't walk. Not good.
