Subject: final deck - Offense: RIP good times

Hi everyone,

I thought the deck below might be interesting to you, it's a high-level overview of where I think cyber security is going in the next few years. I'd ask you not to share this too widely since I haven't given the talk yet.

=div>

Would love to hear any comments/feedback.

Thanks,
Vincenzo

=i everyone,

this is the final deck for the presentation, thank you for providing feedback (please hit me up if you have more comments!) - it was very useful. I'd ask you not to share this publicly since I have yet to give the talk.
