Dear Jeffrey

You may remember we discussed betting as a way of testing scientific opinion, more reliable than the hype in grant applications. As you may have seen this has now been tried on a limited scale, with success:

<https://www.economist.com/science-and-technology/2018/09/01/experts-are-good-at-betting-which-scientific-experiments-can-replicate>

Best  
Rupert
