Subject: LSJ staff shuttle

<=div>

Hi Carlos... Karl and I have discus=ed design parameters and cost. Best guess is she would be a 46' &nb=p;open back cabin ,composite catamaran powered by diesel inboards and cost s=mewhere between \$500 and \$600K. We could start construction in 10 months (J=ly 2019). She would be completed in November 2019.

If you wanted to move forward w= are requesting a \$10K partially refundable Right of Refusal deposit f=r that shop construction slot. We would then design, spec and price t=e boat. IF you build the entire \$10K is applied to the price. If you don♦t build we'll keep \$5K for the design and costing analysis and=refund \$5K.

Hope that helps get things rolling!

Regards,

Richard A. Difede
