Subject: Helicoter update

Jeffrey

The New Generator is installed in the Helicopter and operation check is good= The part arrived early, so I flew down to St Thomas this morn with the Bell M=chanic,, We are going to install the Tail Rotor Pitch links tomorrow, then test fly t=e Heli,, The background noise we heard in the headset is gone, actually the Bose head=ets are quieter now,, Heli will Be Return to Service tomorrow afternoon

I've been talking with Darren, Dave and Pete, along with Gulfsream T=ch support to get explanation, why the crew had to Re-set the AC system to g=t the converter / Micro wave power restored, in the past I've seen the 1conv light illuminated sometimes on the r=ar Gally master control panel, I'll revert back with answers as soo= as SAV tech support reviews the Data from the Plane's download.

Thx
Larry
