Jeffrey,

We were in the aircraft this morning looking for "space" opportunities for the sub woofer. = was hoping that we had space underneath the L/H #2 seat, but this is already occupied.

My suggestion- you have a subwoofer as=part of this system design and it needs to go back for optimum performance=

We only see two opportunities and they=are both in the fwd arm rest of the L/H divan:

1. ♦=A0 Fwd side (we would need to create=a speaker grill to allow acoustic penetration)
2. ♦=A0 Aft side (see attached engineerin= drawing) where it is "visually concealed".<=span>

Since low octave frequencies are non =E2♦♦directional (it is not nice to roll your eyes at me), I advise installing as dra=ing.

Please provide direction so that we ca= move forward.

Best Regards,

Eric
