Hello:

I meet with Kyle today to find out what =obs he was working on. He told me that they were:

1.

pebble beach concrete footing pour. Dupson is up =o speed on what needs to be done. I recommend that LSJ use =roopy [REDACTED]. He is very familiar with the =ar Mix. He has run the machine many times while =ouring concrete for me in the past. I don't recommend that =ny one with only a few hours training operate this machine and the =bble beach is down a dirt incline which will make it more =hallenging. If one of the LSJ heavy equipment operators =orks with Droopy a couple of times they will be ready to operate the =ar Mix. I related this to Mike Gliden and gave him the =umber of this operator.

2.

Q- hut: =nbsp;expert builders. Kyle says that Mike is up to speed =ith this wok

3.

Boat Ramp: expert builders and Jules are doing this work with additional grade beam. Mike is up to speed on his job.

Kyle will return radio and parking sticker tomorrow.
