Good Afternoon,

Wanted to provide you with an update regarding the pool heater. =s you know, we installed it April 2018... we came with our mechanic =onday, 2/4/19 to check it out. There was an error code, but did not =isolate what part of the heater the error was coming from. Mechanic Dave =as on phone with Raypak technical support running test to diagnose the =problem. After going through all tests, we believe there to be a short =n the wiring somewhere, and Boucher Gas Company is needed. This is the =arranty station for all Raypak heaters. Dave set up for them to come =SAP, and their best answer has been Wednesday. They currently have not =iven me a time, and I called twice requesting one. I am waiting for =heir call back as I type this email. I do apologize for the terrible =iming. But as your pool service company, I'm on top of the problem. I =ill notify you with all updates.

Thanks,

Thomas
