A real threat.

That is of course sad to read and hard to understand.

There are so many person in competition of making life unpleasant and you will just be one more.

I have a different view on all =his and my memory is rather clear.

If Terje had a problem I would =o all to help him was my view then - and that is to help him with some money for him to get his apartment if needed. If cash was needed.

I said he could finance 50% of =t in the bank on its market value and so he did. That (NOK 14 mill) =as the size of money it was needed to pay the mortgage bank and that he needed to borrow to get the apartment without any cash.

All th=s If he could not borrow for some reason; I would need to see to hel= him and all to make sure he could retain his apartment for this family (a=d there we could need to see what we could do).

This was not needed as the mark=t value was more than 100% above NOK 14 mill and the borrowing from any ba=k was without any problem.

Is it now the new view that he =n addition to borrowing less from the bank he did borrow from you and this=I have now have to pay?

Or is it that I have to lend hi= this money for him to own the apartment and if I can find the money; what=type of security do I get and when do I get the money back?
