These prices are the same as the 2018's =e quoted months ago, prices based on this quantity as in the past as =ell as free delivery in the Miami area. About the delivery, if they =ave to go to Riviera Beach, we need to hire an outside company to make =uch a delivery, that would increase the cost by \$100.00 each, so =nother \$1200.00 on top of the total. This can be added later to the =otal.

What we =ould prefer is to live load the container at our warehouse, we have the =apability to do so! We handle the Mules as if they were our own, =e supply numerous tie down and secure the Mules in the container, I =on't think the shipper will do. This way the Mules are kept =ndoors at all times and not sitting in an open lot. This does not cost =ny additional to you and I think the best method, we do this often =nough.

More good =ews, I just spoke with Kawasaki, all these 2019's are in stock =ight now in the Savannah warehouse, this means they will get shipped to =e us right away! It's quite the operation to get these all =ssembled, prepped and tested, but it looks like we could have them all =eady in about 3 weeks.

Thank you!
