Dear [REDACTED] =/p>

We're glad for library concep= feedback.

To go forward on this subject= we'll need all the construction drawing package especially on the l=brary building (Architectural / Structural and engineering). If you c=n get the construction drawing for the other building that'll be great for the next development of the project.

The project of the office as p=esented require some major modifications of the existing which request some=engineering studies; Do you have any idea about a local for that and how do=you imagine the works for architectural part: structure, roofing, MEP (air conditioning, electricity...), leg=l authorizations?

For our part we start to look=for a general contractor qualified to manage all thing to our supervision a=d we will come to you as soon as possible to present a scope of services ac=ording this project.

Thanks again for all,

King regards

Objet : Plafond de la librairie LSJ

Bonjour,

Est il possible de commencer les travaux du plafond de la librairie immédiatement ?

Merci d'avance

[REDACTED] JEE Assistant
