Subject: Questions from TNT

Here's the questions from TNW (they have 13M monthly readers). The more details you give the better.

Please try to respond on the next 48 hours.

-Very basic: where does your money come from?

-To what degree does a research project's potential for monetization guide your funding decisions?

-How else can someone push back against an anti-science president besides funding more science?

-Why is science political? Or is it? Set me straight here.
