Unique positioning and differentiation (in an otherwise crowded market) through three core aspects:

1. Fully utilise the potential of the EV architecture to maximize interior space on a small footprint at affordable prices
2. Relevant and streamlined user experience
3. A sustainable subscription business model adapted specifically for electric vehicles

Canoo will utilize the same rolling chassis ("skateboard") to launch a series of vehicles for urban use. These include a lifestyle, ride-hailing, delivery and commuter vehicle. The first vehicle will come to market in 2021 and be offered on a bundled subscription basis.
