Subject: Canoo

Canoo is a Los Angeles based electric vehicle company founded in 2017. Canoo is employing over 300 people and is led by a highly experienced team of engineers, designers, marketing and technology professionals.

Unique positioning and differentiation (in an otherwise crowded market) through three core aspects:

1. Fully utilise the potential of the EV architecture to maximize interior space on a small footprint at affordable prices
2. Relevant and streamlined user experience
3. A sustainable subscription business model adapted specifically for electric vehicles

Canoo will utilize the same rolling chassis ("skateboard") to launch a series of vehicles for urban use. These include a lifestyle, ride-hailing, delivery and commuter vehicle. The first vehicle will come to market in 2021 and be offered on a bundled subscription basis.
