When the steel reached the end of the slab on the backside it =ecame apparent that the slab was laid out too short to accommodate the =teel structure. Roughly a foot too short.

I have asked =lderfield to extend the slab 4' to also accommodate a walkway =o access the back door as the grade drops about 4.5' as you =pproach the back of the building. He said I would have the quote by the =nd of the day today.

Also, in addressing the metal =oor order in Kyle's absence I noticed that only one man door =as listed on the quote for the Q hut from Taylor,Cotton and Ridley. I =ave spoken to Peter Davila about that and will let him know for sure =long with addressing his questions in the email from 2-6-19.

With regard to a completion date I will have Elderfield give =e an expected completion with the additional work included.

I also had a welder come out on Friday to look at =uilding the structural frames for the door openings to support the =verhead doors and extend the generator exhausts up through the roof. He =aid he will have a quote to me tomorrow.

kyle was originally =romised 2/15 as a completion date
please advise if that =as changed and what new date may be..
thank =ou
