Mold =eans moisture. The environment here is humid. The cold indoors against the=hot outdoors makes everything in between sweat - ductwork, stone walls, et=. We even see the moisture around the edges of the floor.

Let me talk to Mike about possibil=ties for moving air and/or wicking moisture in the attic - attic fans, des=ccant, DamRid, special lighting, etc. Will do some research and get back t= you.

The=light gray section is the normal color.

All the duct in the bath is now being removed also. The bath and the bedroo= are separate systems.
