It =s probable that Jonathon Pempek USACE will be coming down on the 11th.♦=AO USACE regulatory has been giving him some push back on processing of th= dock permits(and on several other non compliances he has settled). = will be talking to him about what needs to be done to get things moving f=ward again. I know CZM had raised issues on the applications and th= temporary ramps. Has there been a resolution? I want to check=on what is happening but did not want to stir the pot so to speak if a res=olution is in the process.

On the cable side we are less than a month away from both the CZM permit =nd the USACE permit.
