Subject: Podroof shipping container roof kits by Shield

I believe the gable version with 40' between the containers and two 20' units on each side would work for Christmas cove with ravel on the ground in between.

This would be harder than a canvas roof and still easily removable down the road.

Approximately \$16,200.00 shipped to tropical in Florida

Weather Proof

Shelter

The PODROOF® shipping container roof kit gives you all weather protection.

.

Economic

Storage

Storage in a building is secure but it is not portable and costs much more.

.

Durable

Materials

Other types of temporary shelters are not as durable as the 100% steel PODROOF®.

.

Galvanized

Protection

Corrosion and oxidization resistant steel backed by a 20 year warranty.
