Jeffrey
Just heads up,
Rain and low ceilings in Teterboro until 5pm.
Improving as the day progresses, except after frontal passage at 6pm,, wind g=sting 38mph.
I was planning to have Dave fly,
Personally I'd prefer the lower ceilings and Visibility, and arrive a= 2pm ish,, should be a smother flight for you,,

Noon
400 overcast / 4 mile visibility.
6mph wind.

3pm
forecast 800 overcast / 4 miles visibility. 9 mph wind.

6pm clearing,
5000 scattered / visibility greater than 6miles, Frontal passage, wind 18kts gusting 33kts.

Thx
Larry
