Good day boss

As per your requested myself and tap is working on the audio system from the=rack it shelf ( the floor is being worked on and your desk removed for safe=y) Tap ask if we can bring a sound guy that he knows to look at the power d=stribution tomorrow afternoon.

We noticing the ceiling light slightly blinking while we were testing the sp=akers. This guy helped him with a similar issue at the club he plays at. Wh=le talking to him on the phone he didn't like the fact that the rac= was not on it's own independent breaker box vs the main box. We es=ecially notice it when testing the subs. Do we have permission to do so?

Regards  
Jruan
